Set 1945-46 Tax Rate At $1.09

ALL SCHOOLS TO OPEN MONDAY, SEPTEMBER 10

Classes at Jefferson Union High school will be resumed Monday, September 10 at 8:25 a. m., Principal Stanford Hannah announced this week. Beginning this fall a six-period day is to be inaugurated, the principal advantage being that each student will get more time in each class. This provides an opportunity for some supervised study under the direction of the teacher.

With two less periods per day each student will have but one study hall period as compared to two last term. The periods will be 56 minutes long with four minutes between periods.

Approximately 650 students are expected to attend the fall semester. Transfers are asked to register a week before the semester starts at the school office, 6996 Mission street.

Curricula for the term include academic, commercial, arts and crafts, music, wood shop, auto mechanics, home making and general. The only changes announced were the additions of Latin I and the omission of French I.

Assemblies will be scheduled before lunch instead of after, as was done previously.

New faculty members beginning the fall semester will include: Mrs. Effie Anderson, taking the place of Mr. Earle Lewis, will teach art; Mrs. Catherine Andrews, world history, English, civics, U. S. history; Mrs. Hazel Smith, in place of R. J. Gale, algebra and vocation; Frank Kamm, physical education; Miss Joan Jones, algebra, general mathematics, plane geometry, trigonometry, in place of Raymond Wochner; Miss Mary Nelson, journalism and English; Miss Hildegarde Seidel, German and civics, taking Walter Griffith's place; Victor Binsacca, mechanical drawing and general mathematics; Miss Berna Sutton, library and book room, in place of Mrs. Ethel Wine; Mrs. Elda Van Note, Spanish, Italian, and Latin I.

Student body officers for the coming term are Harold Tikkanen, president; Louise Ross, vice-president; Frances Crossley, secretary; Mary Shackelford, treasurer; Lorraine Sanders, judge; Walter Shannon, sergeant-at-arms; Colleen Robin, yell-leader.

The tentative football schedule for the school next fall is as follows: Palo Alto, October 19, there; San Jose, October 26, there; San Mateo, November 2, Jefferson; Sequoia, November 9, Jefferson; Burlingame, November 16, Jefferson; South San Francisco, November 23, there; Lincoln, November 30, Jefferson.

Changes in the school itself have been going on the past few weeks. Mr. Bogart has been busy fixing desks, waxing floors, etc. The main office and an adjoining one have now been combined into one and were done over in cream and brown. Three new classes will be started in the print shop this term.

Mr. Hannah announced the purchase of three school buses. Previous to the purchase, transportation was furnished by the Burlingame-San Mateo Transit company.

R. L. Crane jr., superintendent of Jefferson Elementary district, announced that all elementary schools will resume their classes on Monday, September 10, also.

Youngster Cuts Lip In Fall At Home

Two and one-half year old Joann Seepanish fell against the window sill in her home at 6067 Mission street, Monday, August 13 and severely cut her lip.

R. E. Fletcher, 6075 Mission street contacted the police department and asked for assistance in getting the child to a hospital. However, when Officer George Savage arrived the child had already been taken to Alemany hospital by her father.

Sea Scouts Attend Harbor Day Event

Members of Sea Scout Ship No. 144 participated in Harbor Day events held in honor of Harbor Day, Sunday, August 12 at Aquatic park in San Francisco.

Police Nab Driver Of Stolen Auto

Monday, August 13 at 12:50 a. m. the South San Francisco police department picked up David Getty while he was driving a Buick pickup belonging to William Passaglia, 788 Hillside boulevard.

When Officers Roland Petrocchi and August Benassini contacted the owner at the request of the South San Francisco police department they were informed that the truck had been stolen from in front of Dino's tavern.

On complaint made by Judge William J. Sweeney and sworn to by William Passaglia, Getty was jailed on charges of taking an automobile without the consent of the owner.

At 2 p. m. the same day charges were dismissed against Getty because the complaining witness failed to appear. The truck was returned to the owner.

Improper Turn Leads To Arrest By Police Officer

Edward Langdon Hallenback, 998 Silliman street, San Francisco, led Officer E. Beecher a merry chase Monday, August 13 at 5 p. m. after he made an improper turn at Mission street and Vista Grande avenue in front of the officer's car.

When Hallenback was stopped by the officer he was told to drive to the City Hall. Instead of stopping there he continued down Irvington street to Acton street and then to Mission street, where he was taken out of the car and taken to the police station.

He was given a tag for improper turning and having no registration card. His car was taken to the Daly City garage.

Slight Damage Caused By Accident

An accident involving Jack De Martini, 2937 San Jose avenue and Jack E. Palm, 122 Bepler street Friday evening, August 10 resutled in slight property damage.

The accident occurred at 13 Hillcrest drive at 5:45 p. m.

Following the accident DeMartini's car was parked in front of the City Hall and the keys left at police headquarters.

It's Costly To Argue With Officer

Sorry, wrong man!

Officer Dean Wood was approached Saturday evening at 11:20 p. m. by Earl E. Crum, 293 Los Banos avenue, who stated that he had a score to settle with an officer who had pushed him earlier in the evening.

Officer Wood tried to persuade the man to return home with his wife but to no avail as the man refused and started a scuffle. As a result he was jailed and bail was set at $25.

Crum was released Sunday afternoon at 2:40 on deposit of $25 bail in custody of Mrs. Crum and friends. He is to appear at the next court session Friday, August 17 at 2:30 p. m.

Youngster Taken To Hospital After Severe Hemorrhage

Unable to contact a doctor, Mrs. Curtis of 65 Guadalupe avenue, phoned police headquarters Tuesday morning, August 14 at 12:06 a. m. stating that her son Richard was having a severe hemorrhage. Cause of the hemorrhage was due to conditions of the tonsils.

Officer August Benassini responded and the boy was taken to Alemany hospital. The doctor administered first aid to the youngster who will be five this month, and recommended that he be hospitalized.

Following treatment he was returned home and arrangements were made by Mrs. Curtis to have him admitted to a government hospital. An ambulance called at 2:30 a. m.

Outcome of tests given the boy were to determine whether or not he would be returned home Thursday.

Teen-age Center To Be Closed Until Sept. 14th

Attendance at the Teen-age Center, No. 5 Firehouse, Oliver and Bellevue, has been lax the past few weeks and as a result it will be closed until school opens.

The first dance will probably be held Friday evening, September 14 at the end of the first week of school which opens September 10.

Patronesses for the center, under the direction of Mrs. Anne Eason and Mrs. Maizie Boyle, are furnished by the Jeffreson Union High School PTA.

Backs Into Car— Breaks Fog Light

Sergeant Joseph P. Polleo, 1153 Geneva avenue, San Francisco driving a Dodge sedan backed into a Plymouth coupe at 13 Hillcrest drive, shortly after 11:40 p. m. Saturday, August 11. No one was injured and the only property damage was a broken fog light on the Plymouth coupe.

Fire Department Budget Raised To Take Care of Increased Expenditures

To Resume Meetings Of Cub Den No. 8

Meetings of Cub Den No. 8, discontinued during the summer months, will be resumed when school starts again. Mrs. E. L. Pedroni, den mother, announced this week.

The Den formerly met at 598 Evergreen avenue but are antiicipating a new meeting place beginning this fall.

Building Permits Issued Here For 14 New Homes

Building permits for 14 new homes and one commercial building have been taken out recently.

James G. Lafayette applied for a permit to erect a building on Mission street near the San Francisco county line, between Acton street and Templeton avenue, to be used as a tile mantel display room.

Four new homes are being constructed by A. Nelson and company of San Francisco on the southwest corner of Crocker avenue and Peoria street.

T. J. Callan with J. F. Millett jr., as contractor, has taken out permits for ten five room residences to be built in various parts of the city.

Food Stolen From Italian Cafe

Sunday, August 12, Angelo Romani, proprietor of the Italian cafe, 6630 Mission street called the local police department stating he wanted to report a theft. Officers R. Beecher and James Welsh were told that three customers had gone into the kitchen and taken two bricks of cheese, two dozen eggs, sardines, etc. from the ice box. Evidently someone decided this was an easier way of obtaining food than through the regular channels.

The proprietor did not know the names of these men and could only give a meager description of them.

Mayor A. J. Gaggero called the meeting of Daly City's Board of Councilmen to order at 8:20 Monday evening, August 13, to consider the 1945-46 tax rate, an increase in the budget for the fire department, and many other matters of importance to the city.

Resolution No. 881 fixing the 1945-46 tax rate at $1.09 was unanimously adopted. A breakdown of the tax rate is as follows:

Old City and Annexes 1 to 3.	
General Government	$ 0.691
Library Maintenance	.045
Unbudgeted Reserve and Post-war Planning Fund	.100
Water Works Reserve Fd.	.050
Fire Alarm System Reserve Fund	.084
Subtotals	$ 0.970
1938 City Hall Bond Fd.	.060
1941 Fire Dept. Improvement Bond Fund	.060
Total	$ 1.09

Resolution No. 880 provided for an increase in the budget, affecting several departments, the most important one being in the Fire department, this amount was increased to $7,113.08 an increase of $1,113.08.

A communication from Henry J. Seiler, in which he tendered his resignation as a member of the Board of Review, was read. He stated he would be absent from the city due to business and therefore could not serve on the board.

Marjorie Ericksen, recreation supervisor at Lincoln park, submitted her resignation and it was accepted.

Allen W. Brush, member of Company 1, D.C.F.D., requested a leave of absence while he is in the armed forces.

Louise T. Cook requested a three weeks leave of absence in addition to the one week vacation she is entitled to. The request was granted.

A communication from the Daly City Record in regard to a fire hazard existing on a vacant lot near a service station on Mission and San Jose avenue was read. The matter was referred to Fire Chief A. P. Chesney and Assistant Chief A. J. Bodien.

The Colma post office requested a change be made in the names of at least two streets, as these both bear the same name, San Pedro avenue, and are somewhat confusing. They suggested that a change of one to San Pedro road

(Continued on Page 8)

Marines, moving field pieces up a road on Okinawa, flatten out as sniper fire, from the hill in the background, rakes across the road. Two Japs, lying in ambush, were killed after a short encounter. Their effort is a challenge to us at home to purchase War Bonds to the limit.

From U. S. Treasury

Leaves Old Hat For New One And $63.50 in Cash

Herman Mc,Camish, proprietor of Modiste Cleaners, 6202 Mission street informed Officer Henry Sundermann that his establishment had been entered between the hours of 7 p. m. and 8 a. m. the night of August 10.

Entrance was gained through a small window about 8 feet from the ground on the north side of the building. This was the only possible means of entrance as the front door was bolted and the side door could not be opened from the outside.

It seems someone needed a different hat very badly because one was taken and an old delapidated one left in its place—$63.50 also vanished. The burglar left by way of the side door.

Women's Civic Club to Meet

The next regular meeting of the Women's Civic club will be held at the home of Mrs. Dora Holmberg, 215 Peoria street.

Members will meet at 8 p. m. Thursday, August 23, with Mrs. Holmberg and Mrs. Rose Watson acting as hostesses.

This Is It!

PEACE! Not a partial Peace—not just a hope—not a wish—but the real thing—PEACE!

The guns are silent. The planes are grounded. The bombs drop no more. The fighting men rest—not fretfully in fear of tomorrow's battle; theirs is a blessed rest that comes only with the realization that there are no more struggles ahead, no more long, ghastly days of ceaseless fighting, no more endless nights of turmoil and torture; no more bleeding, no more dying.

Today the overflowing hearts of soldiers and civilians alike rise in one mighty prayer of thanksgiving that the cause of Right has triumphed Our Nation has risen from the depths of danger into which it was suddenly plunged on that quiet Sunday morning in December nearly four years ago. Four years? Yes, four years as we measure time. But four decades, four centuries to those who have fought and those who have been waiting for their return.

Now our men of the land and sea and air no longer look toward Tokyo. Their eyes look toward the place where their hearts and hopes have ever been—home! Home!

"This is the Lord's doing; it is marvelous in our eyes. This is the day which the Lord hath made. . . . "

This is the day of PEACE.

The Valley of the Shadow of Death

On August 6 a startled world first heard the words, "Atomic Bomb!" Since that date and with the beautiful word of "PEACE" yet ringing in our ears the world still walks through the Valley of the Shadow of Death.

Well may a fearful world pray that the madness of war shall never again corrupt the peoples of our planet. If it does, men and animals alike may be forever destroyed. Foliage of green things may forever die along with the things that crawl and fly.

The wild, glad cry of "PEACE!" has confused our thinking even more than the first hours following the announcement of the atomic bomb. Concepts, values, and policies must be changed overnight by the statesmen of our shrinking planet. Yesterday we spoke of the "Big Three." Tomorrow Russia may be little stronger than Rumania.

It is not Jules Verne speaking, but men of science, who tell us that an atomic bomb the size of a golf ball or pea and a thousand times greater in strength than today's weapon may be the problem of tomorrow. Some say we should destroy the bomb's formula. How impracticable the thought! A Hitler or a Hirohito would soon be ready with a new, improved model.

The fear is not without its compensations, however, for truly the Nations of the world have become democratic in one swift stroke.

It is submitted that all men may die to be never again remembered unless a world conference for the control of atomic power is quickly and intelligently formulated and fostered by men of PEACE.

Mankind demands America's leadership.

The Loony Lords

If the Japanese war lords have not already started their "big parade" toward the realm of their ancestors via the hara-kiri route by the time this reaches print, there is reason to believe that said "big parade" will soon get under way.

The loony lords simply haven't any other place to go. They wanted to rule the world so they guessed that December 7, 1941 was the day to begin their all-out drive in that direction. But they guessed wrong. Tojo and his tribe didn't realize it for a while. But now they know.

They know, too, that if they don't "shuffle off this mortal coil" by their own hands they are pretty sure it will be done for them when we catch up with them.

Back in 1941 the loony lords thought they had a cinch. They knew that America didn't want to fight and that she wasn't prepared. But what they didn't understand was that even though America didn't want to fight she could and would, and that, though unprepared, she could get ready with unbelievable speed.

What made it worse for the Japs was the fact that when the real tests of naval strength came, they tried to get by with half measures, committing only a part of their fleet in vital engagements, always trying to hold some back in reserve.

These half measures helped to bring full defeat—the defeat they have earned at great cost—the defeat they so richly deserve.

State Is Well Prepared to Meet End of the War

The state government has been preparing for two years to meet the impact of war's end on employment in California, Governor Earl Warren said today.

The 1943 and 1945 legislatures authorized a $350,000,000 job program and over $250,000,000 of the necessary cash has been accumulated, Warren said. The Department of Public Works has completed the blueprints for $98,590,840 of the work and its "stock of completed plans and specifications which can be taken off the shelf the minute men and materials are available" has been growing daily.

The Public Works Department's Division of Highways has prepared blueprints for $76,137,000 of new highways and bridges towards a three year construction program totaling $115,000,000.

The Division of Architecture has completed blueprints for new state hospitals and buildings which will cost an estimated $22,453,840, part of the state's $145,000,000 postwar building program. The division is working on plans for another $30,000,000 of the program.

These reports, Warren said, "show that the state government has been preparing to help bridge the gap between wartime and peacetime employment, and in continuing to do so."

Over $250,000,00 cash which is "in the bank" includes a $145,000,000 building fund and $90,000,000 for financing construction of "local projects having a state interest." Final form of the local public works program is yet to be determined by the legislature, but the money has been put aside.

The Division of Highways has $20,000,000 of construction funds on hand and estimates its revenues for new work from state sources and federal appropriations will amount to about $100,000,000 during the first three postwar years.

Purcell pointed out to the governor that 90 per cent of money spent in building highways and bridges "goes into some workman's pockets"—either directly or through the purchase of lumber and other materials.

On top of the $350,000,000 which the Warren Administration has stored up to withstand any unemployment wave, the state has distributed $1,500,000 to the counties to pay for preparing blueprints for new county roads. These plans will be the basis of a construction program costing about $58,440,000.

Not all of this amount will have to be provided by the counties. The governor approved an appropriation of $12,000,000 to "match" a special federal grant of $15,000,000 for building rural "feeder" roads not part of the state highway system.

The counties—and cities—also are starting to draw on a $7,000,000 state fund in making plans for local public works. Additionally, the state made available $3,000,000 towards the cost of sites and rights of way for these new projects.

So far, 45 applications have been filed for $265,000 of the plans money. Proposed expenditures based on such plans are estimated at $20,573,000—principally for new schools, sewage disposal plants and streets. If this ratio is maintained, it would result in over $545,000,000 of local public works.

Also, Warren pointed out, there is a reserve of nearly $700,000,000 in the Unemployment Insurance Fund, which officials declared would "take care of the most severe unemployment situation that might occur."

Nellie E. Baker Passes To Beyond

Nellie Ellen Baker, 3994-23rd street, and a former resident at 514 Templeton avenue, Daly City passed away Sunday, August 12.

She was the sister of William Thomas Baker, the late Peter Baker and Theresa Rust, and the aunt of Ingemand Rust.

Funeral services were conducted from the mortuary of W. C. Lasswell and company, 6154 Mission street, at 9 a. m. Tuesday, August 14. A requiem mass was celebrated for the repose of her soul at 9:30 a. m. at Our Lady of Perpetual Help church. Interment followed at Holy Cross cemetery.

Mrs. M. Holzwarth Passes Away

Mrs. Margaret E. Holzwarth, who resides at 198 Acton street, passed away at St. Francis hospital Tuesday, August 14.

Her sole survivor is her husband Albert Holzwarth. Funeral services were conducted Thursday, August 16 at 10 a. m. at the mortuary of W. C. Lasswell and company. Interment followed at Olivet Memorial park.

Baby Daughter For Mr. & Mrs. R. Oakes

New resident at the Oakes home, 263 Station avenue, this week is Mary Margaret, born at the Stanford Lane hospital Saturday evening, at 8:30 p. m. to be exact, August 4 to the proud parents Mr. and Mrs. Robert Oakes. She tipped the scales at six pounds six ounces.

Her two brothers Jimmy and Dick are overjoyed about their new sister, and so too is Mrs. Gertrude Oakes, grandmother, for this is the first girl born in the Oakes family.

Cypress Circle To Meet August 22

Cypress Circle No. 14, UAOD, will hold its regular meeting Wednesday evening, August 22 at 8 p. m. Following the meeting a whist is scheduled. Both will be held at the Colma Community Center building.

Mrs. Catherine Wright will be in charge for the evening.

Larger Water Main Now Being Installed At Citrus Avenue Plant Due To Increased Local Water Consumption

An eight-inch water main is being installed from the Citrus avenue plant to reservoir No. 1 due to the increased water consumption. As an illustration, in June 1942, 12,000 gallons of water were pumped; June 1943, 16,000,000 gallons; June 1944, 18,000,000 gallons and in June 1945, 22,000,000 gallons.

The city has plenty of water but the bottleneck is in transporting it from the pump house to the reservoir. A direct pipe line will be installed from the Citrus avenue pump house to Mission street, then north on Mission to Gambetta street, east on Gambetta street to reservoir No. 1.

This will permit the water department to pump more water to the reservoir with less effort and give better security to the city for domestic and fire fighting purposes.

It is also proposed that in the near future a ten-inch line be connected between the Citrus avenue pump house and the San Francisco main water line across Junipero Serra boulevard as a standby in case of emergency. This has been considered for some time and when the connection is actually made it will only be used should trouble occur. This meets highly with the approval of the fire insurance underwriters who have advocated this measure as a secondary supply in an emergency.

This connection will be made as soon as an easement can be obtained from the State Highway commission and the Southern Pacific Railroad company for rights of way under their jurisdiction.

Women of Moose To Honor Member At Dinner Party

A dinner in honor of their associate dean, (College of Regents) Mary Weeks, will be given by the Women of the Moose, following their regular meeting Thursday evening, August 23 at the Odd Fellows building, 26 Seventh street.

The dinner will be held in the banquet hall.

Gladys Sisco, will be chairman, assisted by Nettie Wright and Freida Blum.

Sgt. D. Casentini Proud Father of Baby Daughter

Sergeant Dan Casentini, local Daly City boy and son of Mr. and Mrs. Guido Casentini, 124 Mateo avenue, is the proud father of a baby girl named Sandra Lee, born Sunday, August 5 in Santa Barbara, California.

The mother, Mrs. Mary Casentini, is the former Mary Codemo of Santa Barbara.

The Casentinis also have an older child, Donna Marie.

Legion Auxiliary Installs Officers For Ensuing Term

The American Legion hall, 474 San Diego avenue, was the scene of installation of officers for the Daly City Unit of the American Legion auxiliary, Thursday evening, August 2.

Officers installed to serve for the ensuing term are: Mrs. Julia V. Jordan, president; Mrs. Olga Bordson, first vice-president; Mrs. Doris Davis, second vice-president; Mrs. Catherine Foreman, secretary; Mrs. Vivian Pahlka. treasurer; Mrs. Louise T. Cook, chaplain; Mrs. Marce Trier, historian; Mrs. Gertrude Gehringer, organist; Mrs. Inez Shreve, sergeant-at-arms; Mrs. Gertrude Rich, marshal; Mrs. Margaret Kenney and Mrs. Kathleen Matzek, executive board members.

Installation ceremonies were conducted by Mrs. Zelma Bucholz, 26th district president, assisted by Mrs. Beatrice Camgros, 26th district junior past president.

Separating Egg Yolk

When separating the whites from the yolks of eggs, if a speck of the yolk falls into the whites, touch the speck with the end of a clean cloth. The yolk will stick to the cloth.

Washington Borrowed Money

One of the richest men in the country, George Washington had to borrow 600 pounds for his journey to New York to assume the office of President.

U. S. MILITARY POLICE IN PARIS—T/Sgt. Selmer Logeland, Yosemite, Cal., on leave in Paris, has his soldier's pass checked. In M. P. squad car are Pfc. Paul J. Bubenko, Toledo, O., (left) and Pfc. Dominick Rosinski, Fostorio, O., who are responding to a radio call from the Seine section Military Police broadcasting station.

Crocker Chapter To Hold Whist

Crocker Chapter No. 382, Order of the Eastern Star, is giving a whist party Monday, August 20 at 8:15 p. m. in the Masonic temple, 17 Hillcrest drive to which the public is invited.

Proceeds will be used for the benefit of the arts and skills program of the Red Cross project.

Spend Vacation In National Park

Mr. and Mrs. H. W. A. Rickmann, 421 San Diego avenue spent their vacation with Mr. and Mrs. Gordon Daniell in El Dorado National park.

Mrs. Daniell is the former Frances Rickmann. Her husband is a guard in the United States National Forest service and is stationed at Baltic Peak in El Dorado National park.

New Arrival

Mr. and Mrs. Christaan H. Moll, Daly City, are the proud parents of a baby boy born Friday, August 3.

New Arrival For Lt. and Mrs. R. Capps

Wendy, weighing seven pounds two ounces, made her appearance at the St. Francis hospital Monday, August 13 to the proud parents Lieutenant and Mrs. Robert Capps.

Lieutenant Capps had little chance to make more than a casual acquaintance with Wendy because he had to return to his base in Detroit the same day.

Mrs. Capps is the former Barbara Foreman of 35 Woodrow street.

Note: This is the first girl on the Capps' side of the family and —there can be no questiion as to who will be the center of attraction.

Sergeant Kerger Is Discharged From U. S. Army

Technician Sergeant 4/grade Ernest Kerger, U. S. Army, son of Mrs. Olga Kerger, 428 Bellevue avenue was given his honorable discharge at Camp Beale, Marysville, California on July 10.,

He was inducted into the armed services January 5, 1942, received his basic training at Camp Callan, San Diego and eight weeks later on May 19, 1942 he was sent overseas to Australia.

Sergeant Kerger participated in the East Indies, New Guinea and Philippines campaigns. He is the proud possessor of the American Theatre of Defense, Asiatic-Pacific Liberations ribbons with one star.

He was discharged under the point system, having 91 points to his credit.

Drinking More Milk

Civilians are now drinking between 20 and 25 per cent more milk than during prewar days.

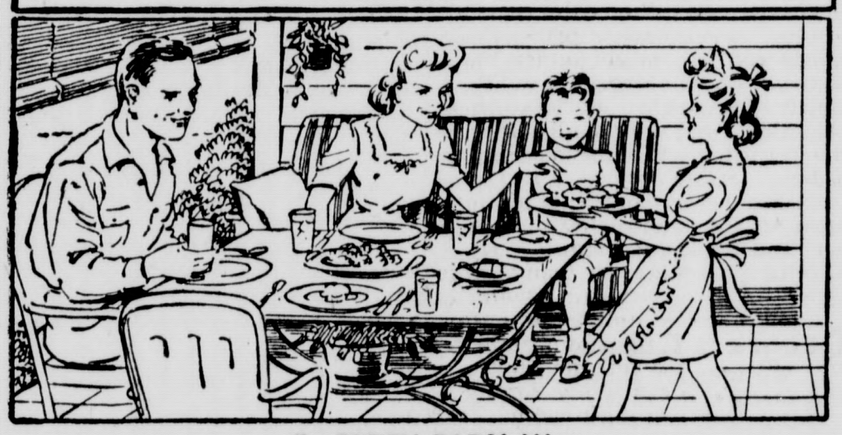
Simple Satisfying Supper Menu



By BETTY BARCLAY

It's not always easy to plan a lunch or supper menu that requires little or no ration foods. But scarce meats may well be overlooked once or twice a week, at least when such a menu as this is followed. For you have here a simple but satisfying meal — one that may be served individually or buffet style, indoors or on the porch.

Menu

Fresh Vegetable Salad
Cottage Cheese
Peanut Butter Bran Muffins
Fresh Fruit Iced Tea

The Peanut Butter Bran Muffins are a flavorful version of the Bran Muffin, in which unrationed Peanut Butter provides all the needed shortening. Served piping hot, they are popular with everybody and supply an important share of protein in a meatless meal. Furthermore, the cereal adds a texture that makes these muffins a tastier treat. They are really butter savers too, for they are delicious served with jelly instead of butter.

Peanut Butter Bran Muffins

- ¾ cup sifted flour
- 2½ teaspoons double-acting baking powder
- 3 tablespoons sugar
- ¼ teaspoon salt
- 1 egg, unbeaten
- 6 tablespoons peanut butter
- 1 cup milk
- 1½ cups Post's 40% Bran Flakes

Sift flour once, measure, add baking powder, sugar, and salt, and sift again. Add unbeaten egg to peanut butter and blend; then add milk gradually, mixing well. Add to flour mixture and mix only enough to dampen flour. Fold in Flakes. Fill greased muffin pans ⅔ full. Bake in hot oven (425° F.) 15 to 20 minutes. Makes 8 large muffins.

And here is an excellent cooky — for the cooky jar, for a picnic, or for quickly-prepared and easily-served summer refreshments of the "cooling drink and cooky" variety. True the recipe calls for sugar, but the sugar is stretched — for you get five dozen cookies from ½ cup sugar. Raisin bran, the new fruit and cereal combination, adds something new in flavor and texture to the ever popular molasses-flavored cooky.

Raisin Bran Molasses Cookies

- 2 cups sifted flour
- ½ teaspoon double-acting baking powder
- 1 teaspoon soda
- 1 teaspoon salt
- 1 teaspoon cinnamon
- 1½ teaspoons ginger
- ½ cup shortening
- ½ cup sugar
- 1 egg
- ½ cup molasses
- 1½ tablespoons vinegar
- 2 tablespoons milk
- 1 cup Post's Raisin Bran

Sift flour once, measure, add baking powder, soda, salt, and spices, and sift again. Cream shortening, add sugar gradually, and cream together until light and fluffy. Add egg and beat well. Add molasses and vinegar; mix thoroughly. Add flour mixture, alternately with milk, mixing well after each addition. Add bran and blend. Drop from teaspoon on greased baking sheet. Bake in hot oven (400° F.) 8 minutes, or until done. Makes 5 dozen cookies.

Note: For softer cooky, store with slice of bread in covered container.

NEWS OF OUR MEN and WOMEN IN UNIFORM

The Queen Mary roared a predawn greeting August 2 and New York harbor responded with a cry of "Welcome Home."

One of the first to debark was soft spoken Captain Guy E. Carr of Spartenburg, South Carolina, who wore not a single ribbon on his shirt although he is one of the most decorated officers of the European war.

Besides the Distinguished Service Cross, which he received from General George S. Patton, Captain Carr is entitled to wear the Silver Star, Bronze Star, Purple Heart with two clusters, European and Mediterranean theatre ribbons and six battle stars.

He is the nephew of Joseph O. Carr of Carr's Service station, 6755 Mission street.

With the 32nd Infantry Division in Northern Luzon, P. I.—Corporal John R. Eason, son of Mr. and Mrs. J. Eason, who live at 924 Hanover street, Daly City, has been awarded the Combat Infantry Badge for exemplary conduct under enemy fire.

Entering the army in April, 1943, Cpl. Eason has been with the 126th Infantry of the famed 32nd (Red Arrow) Division in the SWPA for 21 months. He is a veteran of the Saidor, Aitape, Morotai and Leyte operations, and saw action in the Villa Verde-Santa Fe area in northern Luzon, where the 32nd killed more than 9,000 Japanese during its 119-day drive up the tortuous Villa Verde Trail in the Caraballo mountains.

Santa Barbara, Calif., Aug 9—First Lt. Clay W. Wolfe, 169 Bellevue avenue, Daly City, has reported to the Army Ground and Service Forces Redistribution Station here for assignment to new duties based on skills and experience gained during 11 months' duty in New Guinea.

The redistribution station, one of six established by the Army to receive servicemen and women considered essential to the prosecution of war, offers a comprehensive program of recreation, athletics, and entertainment to the returnee while he awaits new orders. Santa Barbara's famed vacation resort-hotels, now managed for the veterans by the Army, are under direction of the Ninth Service Command.

Mr. and Mrs. P. L. Peterson, of 7240 Mission street, received a telegram Saturday from their son Private First Class John L. Peterson stating that he had arrived safely in New York and was hoping to see them soon.

Private First Class Peterson has been in the armed forces since April 14, 1943; 20 months of which have been spent in overseas duty in the European area.

In November, 1943, he was graduated from the Armored school at Fort Knox, Kenutcky, which qualified him as an automotive mechanic.

He has 63 points to his credit.

Arriving home Saturday evening, August 11 for 30 days leave was Louis Giusti, watertender 2/c, son of Mrs. C. Giusti, 91st avenue, Colma. Louis flew in by plane from Los Angeles.

He has spent 43 months in the Navy; 18 months in the South Pacific and six months in Alaska. He received his boot training at San Diego and a month following his training he left for overseas.

Louis, who is entitled to wear the American Area, Asiatic-Pacific, and Philippines ribbons, will report back to San Francisco at the expiration of his leave.

Among veterans from the Bay area arriving in Boston, aboard the Joseph T. Robinson, this week, was Sergeant Benjamin Leveroni, whose parents reside on Castle street, Colma.

Sergeant Leveroni, with the Eighth Army Air Force, has been overseas for the past 20 months. He entered the service February 15, 1943.

An Aleutian Base—Staff Sergeant Louis D. Schenone, son of Mrs. Adeline Parodir of 41 Cavour street, Daly City, has recently been promoted from the rank of sergeant.

S/Sgt. Schenone has served nine months in the Alaskan Department and is presently assigned to a coast artillery organization stationed in the Aleutian Islands.

Sal Soda on Woodwork

When repainting woodwork a lot of sanding can be saved if the woodwork is washed in a strong solution of sal soda. It removes gloss. Rinse thoroughly.

Congress Caught Flatfooted

We imagine that most, if not all, of our congressmen are pretty red-faced right now. If they aren't, they should be.

Just a few weeks ago they calmly closed shop in Washington and sallied forth for a nice vacation. The fact that they took no action on legislation that the Nation will need when it starts the full swing back to peace production didn't bother them at all.

Now, however, the vacation days have come to an abrupt end. The solons can no longer dilly dally. They've got to get down to brass tacks. They must now make decisions—and quickly—on such things as straightening out the snarls in the surplus property administration and considering the demand for a single administrator instead of a board to handle that bureau; they must quickly give final approval to changes in the G.I. Bill which will eliminate inequalities in it; and they must work on the problem of reconversion aid for those businesses which had switched completely to war production.

Congress has shown in the past that it really can act quickly in a great emergency. PEACE has thrust just such an occasion upon us now. Our lawmakers must rise to the occasion.

Guadalcanal to Tokyo

With giant naval rifles of the biggest fleet in history battering on the very door of Tokyo, and with hundreds of thousands of troops getting set for an invasion of the Jap homeland, it is hard to realize that only three short years ago a handful of American Marines, backed by a scant naval force, began the first offensive action against the Nips.

That was the landing on Guadalcanal and it came on August 7, 1942. On that day three years—and 3,000 miles—ago, the news of the invasion of that tiny island created far greater excitement than the massise assaults now being dealt by sea and air against the punch-drunk Jpanese.

Then we were starved for favorable news from the Pacific. Early in that year we had had to digest the bitter defeats at Bataan, Corregidor, Singapore, Borneo and Java. Our fleet had stopped the enemy in the battle of the Coral Sea and at Midway, but up to that time we had been unable to take a single step toward regaining territory overrun by the Nips.

The battle of Guadalcanal was insignificant as compared to current operations, but it was no less important. Our victories of today have their roots in the reconquest of that dot of land.

Prior to August 7, 1942, few of us had ever heard of Guadalcanal. Now none of us will ever forget it.

New Planes

It's quite confusing trying to keep up with the new planes that are being unwrapped for the public eye. Almost every week one or two more are revealed. The latest ones are the "Shooting Star," a 550 m.p.h. plus jet plane, and the B-32 which is somewhat smaller than the B-29 but has a number of improvements not enjoyed by its bigger cousin.

Big Business Is Looking Westward For Post-War Gains

Commencement of industrial reconversion to civilian merchandising and the prospect of reduced federal taxes on corporations were attributed by Secretary of State Frank M. Jordan as the principal reasons for the increased number of corporation filings in California.

"It is significant big business is looking westward not only toward California's increased population but as the one important gateway to trans-Pacific trade during the post-war era," Jordan declared. "It is also a strong indication business is gradually starting on its reconversion trend."

"The prospects of the federal government reducing the excess profits and the basic income taxes also are credited with the new influx of business to California."

Secretary of State Jordan disclosed that during July 330 new corporations qualified to do business in this state. This was the greatest number to be filed in the month of July since the pre-war year of 1940.

The taxable corporations also increased with 244 being subject to tax as compared to 172 the same month a year ago.

Among the 34 foreign corporations qualified was the $600,000,000 Montana copper mining company, one of the largest out-of-state corporations ever granted permission to operate in California.

Sothern California received 199 of the 296 new domestic corporations and 24 of the foreign corporations, or 67.6 per cent of the total July filings.

JOBS FOR MEN WITH UNITED AIR LINES

Positions open at S. F. Airport

Sewing Club of Royal Neighbors Met at Scott Home

The sewing club of Vista Grande Camp No. 6035, Royal Neighbors of America, met at the home of Mrs. Clarise Scott, 54 Parkview avenue, Tuesday, August 7.

Members of the club played Dutch whist, following which the hostess served delicious refreshments.

Those present were: Dorothy Williams, Agnes Wood, Gertrude Gehringer, Lois Storm, Elizabeth Sorensen, Lillian Gray, Johanna Hedvall, Annie Smith, Grace Coolish, Marie Thompson, Helen Specht, Cora Ray, Nellie Allen, Mary Rucker, Lillie Thomey and Lucy Nelson.

Kill the Weeds Now

Investigations indicate a ton crop of weeds growing through June takes out the equivalent of at least four inches of rainfall.

OPA SUSPENDS USE OF SUGAR FOR CANNING

In order to conserve critically dwindling supplies, issuances of sugar for home canning purposes was ordered temporarily suspended in six western states at the close of business August 13 in a special order issued by Charles R. Baird, regional administrator of the Office of Price Administration.

The order made public by Robert B. Parks, OPA district director, will affect California, Arizona, Nevada, Oregon, Washington and northern Idaho. Southern Idaho is not affected by the order.

The action was taken to permit the OPA to determine the extent of remaining sugar stocks for home canning purposes and the basis for resumption of issuance by local War Price and Rationing Boards.

Baird said the suspension will remain in effect only until the total remaining supply is accounted for and a new maximum allotment for home canners "can be worked out."

Guy R. Kinsley, OPA regional rationing executive, said that supply uncertainties "make it necessary to allocate new and reduced quotas for the balance of the canning year and assure that this region remain within the total allocation made for home canning purposes by the Department of Agriculture."

Kinsley said that present reports indicate that with more than half the 1945 home canning period still ahead, 83 per cent of the region's total quota of sugar for this purpose has already been issued by local boards.

"Studies made in the past three days," he added, "indicate that should this region continue to issue sugar on the present basis for home canning, there will be none left whatsoever for later applicants."

Kinsley added that 80 per cent of those who received sugar for home canning in 1944 have already applied for and received their allotment for 1945. The OPA has been issuing 10 pounds of sugar for home canning per person.

During the suspension period, local War Price and Rationing Boards will continue to accept applications for home canning sugar, Kinsley said, for processing without delay as soon as the new maximum quotas are established.

Early Movable Type

Fifty years before Guttenberg printed the Bible, the Koreans had developed movable type.

What puts zest into Summer breakfasts?

Variety! To perk up their sleepy, hot-weather appetites start them off these mornings with a breakfast that has sparkle and zip! Ready-to-serve cereals offer a wide scope in energy sustaining menus. Serve a different kind each day. Fresh fruits and berries heaped on top give that "extra touch." Or add hot muffins, or honey-flavored toast to the menu. The suggestions below are just a beginning . . .

SUNDAY BREAKFASTS

Melon Sections Topped with Berries
Fluffy Omelet with Baked Tomato Halves
*Upside Down Marmalade Bran Muffins
Coffee or Milk

UPSIDEDOWN MARMALADE BRAN MUFFINS

1 egg
¾ cup milk
1 cup bran or bran flakes
1 cup all-purpose flour
2 tbsps. sugar
2½ tsps. baking powder
½ tsp. salt
2 tbsps. shortening, melted
¼ cup marmalade

Beat egg in bowl; add milk; stir in bran and let soak while preparing other ingredients. Sift and measure flour; sift again with sugar, baking powder and salt. Add melted shortening to soaked bran. Add flour mixture and stir only until just combined. Grease muffin tins well and place 1 teaspoonful marmalade in bottom of each pan. Drop batter in pans, filling ⅔ full and bake in moderately hot oven (425° F.) 20 minutes or until done. Makes 12 muffins.

HURRY-UP BREAKFAST

Sliced Chilled Peaches on
Choice of Dry Cereal
With Top Milk or Cream
*Honey Nut Toast
Coffee or Milk

HONEY NUT TOAST

Blend together equal amounts of warm honey and softened butter or margarine. Spread on dry toast; sprinkle lightly with finely chopped nutmeats.

EVERYDAY BREAKFAST

Blended Fresh Orange and Grapefruit Juice
*Quick-Cooking Rolled Oats with Raisins
Wheat Toast
Coffee or Milk

*Let raisins sweeten your breakfast cereal. To 1 cup quick-cooking rolled oats, add ⅓ to ½ cup raisins.

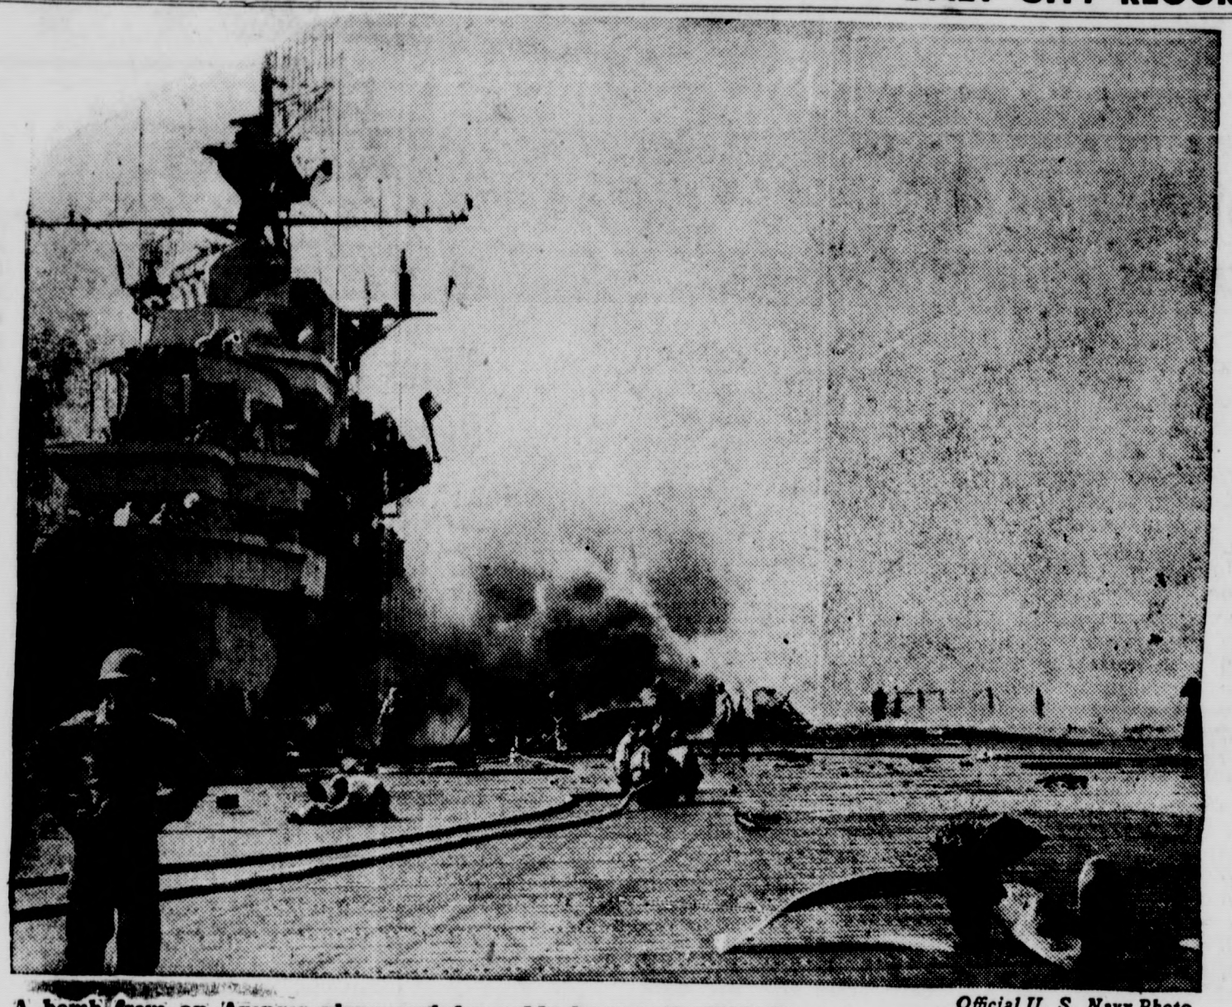
"ELEMENTARY, MY DEAR WATSON"
WE COULD JUST ABOUT FIGURE HOW SOON AFTER THE WAR WE COULD START BUILDING IF-
IF-I COULD KEEP OUR BUDGET FROM JUMPING AROUND. BUT I DO KEEP A RECORD.
SEE, RECEIPTS FOR RENT, TELEPHONE, ELECTRICITY, FOOD...
LOOK, HONEY-GIRL, IT'S THESE FOOD BILLS THAT MAKE THE BUDGET ACT LIKE A GRASSHOPPER.
I BARGAIN HUNT ALL OVER TOWN - BUT WAIT! A LIGHT BREAKS! SEE ME A MONTH FROM NOW, MR SMITH.
THE MONTH IS YOURS, MRS SMITH. JUST QUIT LOOKING LIKE YOU SWALLOWED A CANARY.
...SO I DECIDED TO SHOP FOR ALL OUR FOOD AT ONE STORE-AND LOOK AT THE SAVINGS! SAFEWAY WAS THE ANSWER!
FOR THAT ELEMENTARY BIT OF BRAINWORK, MY BRIDE, YOU GET A STREAMLINED KITCHEN WHEN WE BUILD!

Do you have post war plans too!

One way to accomplish them is to balance the budget of war-time living . . . and Safeway can help you do it. Day after day, week after week comparison shopping will prove the savings made possible by low, everyday prices at

SAFEWAY



Official U. S. Navy Photo

A bomb from an Avenger plane explodes suddenly over the USS Hancock, spreading death and destruction. A first aid and a fire crew quickly restore order. Note the twisted propeller, blown forward on the flight deck by the force of the blast. Repair costs are heavy in the Pacific when ships are far from Navy bases. Your heavier purchases of War Bonds will help keep these ships in the fight.

From U. S. Treasury

Here's The 'Dope' On Hunting and Fishing In State

Hunting and fishing conditions throughout the state, as compiled by the Outing Department of the National Automobile club:

Siskiyou county: Bucks numerous; fishing mediocre; not many doves.

Hunboldt county: Deer are in fine condition with horns almost fully grown. Conditions excellent for hunting.

South Lassen, east Plumas, and Sierra counties: Many bucks are reported in this area. Nights are becoming cooler and fishing is picking up. Some catches being made in the Lake Basin area. Very few anglers out.

Nevada and Placer counties: Deed are numerous and in good condition. Many doves are reported in the foothill areas and quail are also numerous.

Eldorado county: Deer seem plentiful and in good condition.

Yuba county reports a large number of pheasants in the Cranmore area.

Colusa county: Doves are plentiful and there are quite a good many local ducks.

Glenn county: Outlook is good for a big deer season. The last pheasant hatch is turning out better than the first and prospects are that the season will be average.

Yolo county: Deer are in the high areas and on the burns. Bucks are in very good condition and the prospects are good for the opening of the season. There is a good hatch of quail throughout the county.

Solano and Napa counties: Deer hunting in Solano and parts of Napa and Yolo in the Putah Creek Canyon area was spotty. Hunters in some areas saw plenty of bucks while in other favorite spots no bucks were seen.

San Joaquin county: Deer hunting poor. Hunters say it is too dry. Doves and pheasants are scarce.

Calaveras, Alpine and Amador counties: Deer look good and feed is good in the higher mountains. Quail had a good hatch. Doves look fair, particularly in the Shenandoah valley and around Ione and Buena Vista.

Tuolumne county: Fishing continues slow, with some improvement in the main Stanislaus river around Kennedy Meadows and Clark's Fork. Deer look fine.

Sonoma county: The kill of bucks is lower than anticipated. Deer, generally, are in good shape. Pheasants and quail are scarce.

Marin county: Bucks killed around Novato, Nicasio and San Geronimo were nice and fat, but reports are that coast bucks are poor.

Contra Costa county: Deer hunting poor. Some improvement in striped bass fishing. Salmon landings are spotted.

San Mateo county: Deer hunting slow.

Santa Clara county: Very few deer being killed. Those killed in fine shape.

San Benito county: Bucks are in the higher areas and are coming in slowly. Doves are plentiful and there is a good hatch of squail.

Monterey county: Several deer reported. Some salmon.

Fresno county: Not many bucks showing up. Hunters were successful in the Mercy Hot Springs area in bagging their bucks. However, there were not many hunters and most of them left after the first day. Fishing is indifferent.

Tulare county: Several very fine bucks in this area. Fishing in the Little Kern is very good, there are more pack parties in this area this year than for several years. Streams are staying up well.

Kern county: Deer hunting should be good in the Lebec district. A good number of bucks have been seen and they appear in good shape. Thousands of quail are in the Mojave desert springs and lots of doves in Richgrove, Delano, Kern, and Buena Vista Lake area.

Los Angeles county: Fishing conditions generally fair. Most of the trolling boats are still in pursuit of albacore.

B. C. ROSS,
CLERK OF THE CITY OF DALY CITY.

Camp Mattrup Reports Large Daily Attendance

An average attendance of 40 girls and six scout leaders at Camp Mattrup day camp on Tuesdays and Thursdays was reported this week, by Mrs. Louis Buttle, scout leader.

The girls are learning real outdoor life and commencing Thursday, August 16 they will take up handcrafts.

The scouts are also beginning plans for a dedication ceremony to be held at the camp the last Thursday in August.

Home of the Sardines

The Mediterranean island of Sardinia gave sardines their name. Known there as pilchards, it was the place where the small fish were prepared by soaking in brine, drying, and frying in olive oil.

Quick Freezing Tenderizes

Quick freezing makes meat tender. It is believed that the formation of ice crystals within the fibers of the meat, which result in splitting the fibers, bring about the "tenderizing."

Libraries for Sailors

The United States navy has 5,000 libraries on ship and shore.

Notice of Sale of Real Estate at Private Sale

No. 98,342 - Dept. No. 9

In the Superior Court of the State of California, in and for the City and County of San Francisco.

In the Matter of the Estate of THOMAS J. HEALEY, also known as T. J. Healey, Deceased.

NOTICE IS HEREBY GIVEN that Edward F. Healey and Maud McGibben, administrators of the estate of Thomas J. Healey, also known as T. J. Healey, deceased, will sell at private sale, to the highest bidder, upon terms and conditions hereinafter stated, and subject to the confirmation of the Superior Court of the State of California, in and for the City and County of San Francisco, on and after the 1st day of September, 1945, all of the right, title, interest and estate of said Thomas J. Healey, also known as T. J. Healey, deceased, in and to the real property hereinafter described, and the right, title and interest said estate has, by operation of law or otherwise acquired, other than or in addition to that of said deceased at the time of his death, of, in and to all those certain lots, pieces and parcels of land situate in San Mateo County, State of California, and particularly described as follows, to wit:

Lots 10, 11, 12, 13, 14 in Block 14, of Subdivision 1, Highlands of Emerald Lake, as laid down and delineated on that certain map entitled "Map of Highlands of Emerald Lake, Subdivision No. 1, San Mateo County, California", filed in the office of the County Recorder of San Mateo County, January 12, 1926, and recorded in Vol. 13 of Maps, at pages 24, 25, 26 and 27.

Terms and conditions of sale: Cash, in lawful money of the United States of America; 10% of the purchase price to be paid at the time of the sale; balance on confirmation of the sale by Court. Deed and policy of title insurance at expense of purchaser. Taxes to be pro-rated as of the date of the deed.

Bids and offers must be in writing, and may be left at the office of James M. Hanley, Suite 1114, 210 Post Street, San Francisco, California, who is one of the attorneys for the Administrators, or may be filed with the clerk of the above entitled court, in the City and County of San Francisco, State of California, at any time after the first publication of this notice and before the date of sale.

Dated, San Francisco, California, August 9, 1945.

STATE OF CALIFORNIA

Notice to Contractors

SEALED PROPOSALS will be received at the office of the City Clerk of the City of Daly City, California, at the City Hall, until eight o'clock, P. M., on Monday, the 27th day of August, 1945, at which time they will be publicly opened and read, for performing work as follows:

The installation of 8 inch water main from the Citrus Avenue pump house to Reservoir No. 1.

No bid will be received unless it is made on a proposal form furnished by the City Engineer. Each bid must be accompanied by cash, certified or cashier's check, or bidder's bond made payable to the City of Daly City for an amount equal to at least ten (10) per cent of the amount bid, such guaranty to be forfeited should the bidder to whom the contract is awarded fail to enter into the contract.

All bids are to be compared on the basis of the City Engineer's estimate of the quantities of work to be done.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the City Engineer, 2382 Broadway, City of Redwood City, California.

No bid will be accepted from a Contractor who has not been licensed in accordance with the provisions of Chapter 791, Statutes of 1929, as amended.

The special attention of prospective bidders is called to the "Proposal Requirements and Conditions" annexed to the blank form of proposal, for full directions as to bidding, etc.

The City of Daly City reserves the right to reject any or all bids.

CITY OF DALY CITY,
B. C. ROSS,
City Clerk.

SUMMONS

Action No. 38751

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

CALIFORNIA PACIFIC TITLE INSURANCE COMPANY, a Corporation, Plaintiff,

vs.

ALL PERSONS CLAIMING ANY INTEREST IN OR LIEN UPON THE REAL PROPERTY HEREIN DESCRIBED OR ANY PART THEREOF, Defendants.

THE PEOPLE OF THE STATE OF CALIFORNIA:

To all persons claiming any interest in or lien upon the real property herein described or any part thereof, defendants, greeting:

You are hereby notified to appear and answer the complaint of CALIFORNIA PACIFIC TITLE INSURANCE COMPANY, a corporation, plaintiff, filed with the Clerk of the above-entitled Court, within three months after the first publication of this Summons, and to set forth what interest or lien, if any, you have in or upon that certain real property or any part thereof, situate partly in the City and County of San Francisco and partly in the City of Daly City, County of San Mateo, State of California, and described as follows:

Lots 6 and 7, in Block C, according to map showing subdivision of the property of the Mission Street Land Co., filed July 31, 1895, in Volume E of Maps, page 73, in the office of the Recorder of San Mateo County, California, and filed July 31, 1895, in Book 1 of Maps, pages 195 and 196, in the office of the Recorder of the City and County of San Francisco, State of California.

And you are hereby notified that, unless you so appear and answer, the plaintiff will apply to the Court for the relief demanded in the complaint, to-wit: That it be adjudged that the plaintiff is the owner of said property in fee simple absolute; that its title to said property be established and quieted; that the Court ascertain and determine all estates, rights, titles, interests and claims in and to said property, and every part thereof, whether the same be legal or equitable, present or future, vested or contingent, and whether the same consists of mortgages or liens of any description; that plaintiff recover its costs herein and have such other and further relief as may be meet in the premises.

WITNESS my hand and the seal of this Court,

Dated June 18th, 1945.

(SEAL) W. H. AUGUSTUS,
Clerk.
By TILLIE CHIOLERO,
Deputy Clerk.

MEMORANDUM

The first publication of this Summons was made in Daly City Record newspaper on the 21st day of June, A. D., 1945.

"THE COUNTRY NEEDS 4 MILLION AGRICULTURAL WORKERS, SO IF YOU DON'T START HITTING—I'M GOING TO FARM YOU OUT AND I DO MEAN FARM!"

Admirals Make Statements Anent End of World War II

V-J Day statement by Rear Admiral Carleton H. Wright, USN, Commandant, Twelfth Naval District.

"I rejoice with all Americans that this day of victory has come. Three years and eight months after we were attacked at Pearl Harbor, the enemy which first plunged us into war has been the last to accept terms of unconditional surrender.

"The second World War is over, but the problems of its aftermath have just begun. Those problems are perhaps nowhere else more significant than they are in San Francisco and the Bay Area, and they will continue for many months to come.

"We have waited years for this happy day, so it is natural that a spirit of relief and celebration should prevail. When that period is over, let us set about the problems of peace with the same enthusiastic zeal.

"The Navy here will do all in its power to solve the problems that the end of the war has brought to us. I urge the general public not to complicate and delay that task by unnecessary phone calls to Navy activities in this district. The public will be informed of developments through the proper channels as speedily as possible.

"Officers and men of the Twelfth Naval District will stand by and exert every effort to aid in the tasks that lie ahead.

* * *

V-J Day statement by Admiral Royal E. Ingersoll, USN, Commander Western Sea Frontier:

"This is indeed a glorious and a solemn hour. Once more the forces of right have brought the forces of might to terms, and once again the principles of human decency have a chance to live throughout the world.

"The fact that victory has come with unexpected suddenness through a fortunate combination of events should make us grateful that many lives have been spared which otherwise would have been sacrificed.

"It may seem inappropriate to inject words of caution into a victory celebration, but I feel it is my duty to say that while the war is over, much remains to be done.

"Throughout the Western Sea Frontier area, peace brings added tasks. There are thousands of men to be brought home, ships to be reconverted for peaceful trade and naval ships to be decommissioned and laid up. With all this our army and naval forces remaining in the Pacific and those forming the forces of occupation will have to be maintained and supported for an indefinite time.

"So although we and our Allies have at last achieved victory, we on the West Coast must make the necessary rearrangements and carry on until we can return to a normal peacetime basis."

Many Dyes From Coal Tar

More than 8,000 kinds of dyes, many of bright color, are obtained from black coal tar.

Airline Openings For Men and Women

United Air Lines announces that there are openings at the San Francisco Airport for stock chasers and utility toolroom attendants. Both men and women may apply.

Air transportation is an essential industry today, and these jobs are permanent, offering advancement possibilities in the expansion of commercial aviation after the war.

Employee benefits at United Air Lines include vacations with pay, half-fare air travel, insurance protection, periodic wage review and a retirement plan.

Apply in person at United Air Lines, San Francisco Airport, Bayshore Blvd., at San Bruno Ave., or 421 Powell St., San Francisco.

Home Gardens For Fall May Be Planted Now

Victory gardeners who plan on having a fall and winter supply of fresh vegetables for their families are approaching the dead line on planting dates, the University of California Agricultural Extension Service announced today.

Ralph B. Easson, extension specialist who has been in charge of the state-wide Extension Service Victory Garden program for the past three years, warned that mid-August was the final planting date for many fall and winter vegetables in several sections of the state.

"There's a little time left for the planting of beets, broccoli, fall cabbage, winter cauliflower, chard, head lettuce, kohlrabi and fall potatoes," Easson said today. "Another planting of sweet corn is possible and also rutabagas and summer squash."

Newcomers to California, Easson declared, are not accustomed to widespread fall and winter planting. To these home gardeners, he recommended the Extension Service circular, Home Gardens for Fall and Winter, by P. A. Minges, specialist in truck crops, which may be obtained without cost at the Extension Service offices on the Berkeley campus, or at County Farm Advisor offices.

COUNCIL

(Continued from Page 1)
would not help matters much as the names might still be confusing.

A request by Jefferson Union High school was made that the west 60 feet of lots 13, 14, 15 and 16 in block 38 of Jefferson park be rezoned to permit construction of a garage to house school buses and other equipment. They wish to construct a 40x40 foot building immediately and add to it as the need arises. This matter was referred to the city attorney with instructions to draw up a resolution for rezoning this property.

A bid in the amount of $100 was received from Dr. Frank M. Close and Staff of San Francisco for the medical supplies which the city purchased at the beginning of the war. A list was furnished showing the actual purchases the city had made.

The mayor stated some one phoned him regarding supplies and he instructed party to send in a bid. Any and all bids received between now and August 27 will be opened on that night.

A letter from the San Mateo County Tax Collector stated bids had been received on the following property:

Lots 6 and 7, block 6 Concordia Land	$ 120
Lots 40 and 41, block 7, Concordia Land	170
Lots 4 and 5, block 8 Concordia Land	150
Lot 18, block 15 Crocker Tract	350
Lot 9, block 5 Hillcrest Tract	300
Lot 1, block 14 Hillcrest Tract	300
Lot 43, block 15 Hillcrest Tract	300
Lots 36 and 37, block 2 Jefferson Park	700
Port. lots 10 and 11, block 3 Metropolis Homestead	350
	$2,740

Taxes on most of these lots are unpaid and delinquent since 1930.

A claim for damages in the amount of $5000 was filed by Mrs. Helen Honnes who alleges she stepped into a hole in the sidewalk on Los Olivos avenue, May 27 at 12:45, and received injuries to her ankle and also internal injuries. Attorney Hoffmann advised that the claim be denied, which action was taken by the council.

Councilman Dennis reported that the Railroad Commission had granted the city a two-year extension of time for the improvement of Hillcrest drive, a post-war project.

A motion was made and adopted to appoint Clarence H. Schmidt, 139 Winchester street, to fill the vacancy on the board of review left by the resignation of Henry J. Seiler.

Diana Pedroni Celebrates Eighth Birthday At Party

Diana Pedroni, daughter of Mr. and Mrs. C. L. Pedroni, celebrated her eighth birthday with a party at the home of her grandmother Mrs. C. E. Britton, 598 Evergreen avenue, August 10.

Decoration theme was baby pink and white. The cake was decorated with "Happy Birthday, Diana" and topped with eight candles which Diana blew out in one breath after they were lighted.

Playmates at the party to help her celebrate were Robert and Arleen Poole; Catherine and Carol Myers; Sally and Susan King; Florence Nordgren, Patricia Ricci, David and Emily Guido; Charles Hausner, George Pedroni, and Dwane Hale.

Of the many lovely gifts Diana received she was mostly thrilled with a gold cross given her by her father who recently returned from China.

Governor Warren Makes Statement Following Announcement of War's End

By EARL WARREN
Governor of California

This is the day for which peace loving peoples throughout the world have fought and prayed. It is a day in which there is lifted from the hearts and minds of home loving people everywhere a heavy weight of dread and suspense. The last of the aggressors who plunged the world into years of bitter and costly turmoil has been beaten to his knees. In every home there is a sense of relief that the need for destructive combat has ended and that the sacrifices of so many loved ones have borne the fruit of victory.

Here on the California homefront in the midst of joyous victory celebration there must be a realization that the meaning of this V-J Day is two-fold. Working together as citizens of our state and nation and with our associates in the United Nations' cause, we are giving it first the significance of a military victory. It is yet to be determined if this day is to be the greatest day in all our history or just the end of another war. What it comes to mean will depend upon how we use the freedom that is now being made possible for the entire world and how we use the machinery of the United Nations to prevent future wars.

Peace will call for its home front sacrifices just as did war. Peace brings with it the problems of reconversion, of readjustment and the continuous challenge to safeguard the standards of civilization and raise them to a higher level than ever before.

We have won for ourselves here in California an admirable record in the production of the essentials of war. In our headlong rush to fulfill the needs of war we have altered our economy to such an extent that our first problems of peace will be far more complicated than were those which we solved in building our production record.

But let me assure everyone we are not approaching this postwar situation here in California on the basis of first impressions. We have been working on this problem month after month. Your state government, while giving first thought and maximum effort to meeting the needs of war production, has been keenly aware of many problems that would face California whenever the war should end. It has planned and prepared accordingly.

In consequence, we are ready to move forward and meet the uncertainties of the future and I hope our people will not be frightened by the new and unprecedented situations which are bound to arise. The world and world relationships will be in a greater state of flux than ever before. All of us at all times must be ready to meet facts without side-stepping and without glossing them over. We must meet them with good will and a spirit of unity that transcends every other consideration.

In state government we have taken many steps to place California in a strong position to cope with the uncertainties of the days ahead. We have accumulated resources which will provide $350,000,000 of needed postwar construction and in consequence provide thousands of jobs for veterans and displaced war workers. The blueprints for $100,000,000 of this program are ready. We can start letting contracts as soon as men and materials are available and employment need arises.

Our legislature has enacted a flood control and water conservation policy which will make it possible for the federal government to spend one-half billion dollars in California toward the future conservation of our water and soil resources. Here again many thousands of jobs will be created. The legislature has likewise enacted statutes which will enable cities to rid themselves of slum areas in cooperation with private construction. The legislature appropriated moneys for the enlargement of our public beach and recreational centers. It has helped cities and counties in the financing of their postwar planning programs and it has made progress in extending services to our needy.

We have cooperated with the building industry of our state to the end that fuller knowledge would be available in the field of housing. The needs of the next five years have been carefully measured. The home building industry is ready to move the moment materials are available—ready in the field of planning and financing—ready to put men to work.

In addition to all this, we hold in trust in state government a $700,000,000 reserve in the unemployment insurance fund to tide over our men and women who are temporarily out of work.

All of us recognize that much remains to be done. But we are not lacking in means and determination. State agencies already exist to help private enterprise orient itself to new conditions. The legislature is prepared to meet in special session whenever it appears that conditions are right for such a session.

Complicated as our problems may be, we face them unafraid. Our wartime experiences have increased our knowledge of our own resources and strengths. We know we possess the manpower and the ingenuity to use them. It is facts such as these which make this V-J Day represent to me not only the end of the most terrible war in history, but the opening of the most promising era of opportunity in California's history.

Released by U. S. War Department, Bureau of Public Relations.

GENERAL STOOPS LOW ON INSPECTION—During an inspection of a Parachute element of the 11th Airborne Division on Lips airstrip, General Walter Krueger, commanding the 6th Army, bends low for a chat with his men.

HOT WATER
all over the ho
In your bathroom there is more than tub, shower and washbasin use of Hot Water. Floors and walls are kept sweet and clean with Hot Water cleansing. There are medicaments too—hot compresses, poultices, gargles and the comforting hot water bottle.
Yes, most everything in your home you touch, has been made spic and span and sanitary—with Hot Water. Home-laundered clothing, curtains or drapes, painted woodwork—with all of these Hot Water has been at work—saving you work.
In the kitchen, Hot Water speeds food preparation, cooking and makes soap more sudsy for cleaning dishes, pots, pans, floors and walls.

All this Hot Water used in your home—thousands of gallons of it per year—comes from your dependable water heater. Keep it dependable—drain your water heater tank several times a year. It is easy to do. However, if your present water heater is worn out and cannot be repaired you can now buy a good, pre-war quality Automatic Water Heater.

San Mateo County Gets New Mobile Health Aid Unit

The appalling number of army selectees rejected nationally because they had unknowingly contracted tuberculosis, has had a lot to do with the recent country-wide campaign to bottle-neck this dread disease by educational means and timely detection. Among the communities deciding to take the evil by the horns was San Mateo county. The result was their new streamlined mobile unit, built for them by the General Electric X-ray corporation, which local Tuberculosis association officials have dubbed their "Christmas Seal X-ray Laboratory."

The new G. E. X-ray mobile unit was made possible through the sale of Christmas seals, and will conduct chest surveys throughout San Mateo county, free of charge, for all persons interested.

Owned and operated by the San Mateo County Tuberculosis and Health association, the unit built on a truck body, is believed to be the most modern in design of the few such X-ray laboratories now in operation in the West. Compact in every detail, it includes two dressing rooms, and such other innovations as an office for interviews and a dark room for the developing of films on the spot. The unit even carries its own water tank for use in preparing the films, in areas where this may be made necessary. There are special niches for placards and instructions placed conveniently so the examinee can read what it's all about as he waits. The entire layout is such that a steady stream of persons being X-rayed can file through the truck with a minimum of confusion. All details are handled on the spot, and the films take only about 6 minutes for development.

Mrs. America Meets the War - - -

A ration "holiday" has been declared from August 27 through October 13 for certain men's and women's low-priced shoes. Shoe dealers may get approval to sell during that period shoes that were manufactured before March 1, 1944 and which are sold for $3.50 a pair or less. The ration "holiday" is to encourage the sale of low-priced shoes which have piled up on dealers' shelves because people have been using their rations to buy shoes in the higher-priced brackets. No children's shoes will be sold ration-free.

* * *

Mrs. American can give her thirsty family as much tomato juice and grapefruit juice as they can drink without a qualm about her ration budget. Ration point values for canned tomato juice, mixed vegetable juice, grapefruit juice and blended grapefruit and orange juice have been reduced to zero. The reduction was possible because military requirements are substantially less than was anticipated, and production of canned juices is expected to be much larger this year.

* * *

To help conserve our short sugar supplies, commercially-canned fruits this year will be put up in lighter syrup. Mrs. America's pocketbook will benefit from resulting ceiling price reductions on these fruits. For example, ceiling prices for fancy fruits packed in light syrup are expected to be about two cents less for a No. 2½ can than the price for the same fruit packed in heavy syrup last year. Ceiling prices for choice fruits packed in light syrup will probably be about a cent less than last year's heavy-syrup pack.

* * *

The latest word on sugar supplies from the Department of Agriculture is that less will be available the last half of this year than we had during the first six months. Every housewife should do her utmost to cooperate in conserving her quota. Sugar from her regular supply can be saved for home canning in many ways. For instance, fresh fruits can be served for dessert, without using sugar. The syrup for canned fruit may be saved and used to sweeten other fruits, sauces and desserts. Honey may replace sugar in baked goods. These are only a few of the many ways that Mrs. America may use her ingenuity in conserving sugar.

* * *

And remember that fruits do not need sugar in canning to keep them from spoiling. The jars may be filled with juice or water instead of the usual sugar syrup. Fruits which are best suited to home canning without sweetening are peaches, apples, apricots and cherries. Home canned fruits and vegetables are vitally necessary to help stretch the supply of commercially canned foods through next winter. For variety, why not try drying such fruits as peaches, apricots, pears, plums, prunes, apples, berries, cherries, figs and grapes. Drying makes the most of the natural sugar in fully ripe fruit. The fruit may be dried on trays in gas or electric ovens or in home dehydrators. In sunny climates, fruits may be sun-dried.

* * *

The War Production Board has announced new fabric controls designed to increase production of several items of men's and boys' work clothing. Among the items are overalls, blanket-lined overall jumpers and coats, dungarees and waistband overalls, cossack jackets, work coats, work aprons and caps, and work shirts. More work gloves should be available soon, too. Production is being increased by a new method of granting fabric priorities. There will be more canton flannel gloves and mittens, hot mill gloves, husking gloves and mittens, leather combination gloves and mittens, and jersey gloves and mittens.

New Life Preserver Adopted by Navy

Troops carried aboard transports are now beiing issued a new type of life preserver designed especially for wear with full infantry equipment, the Navy has announced. The new preservers, made of kapok, will replace the present carbon dioxide dual-tube life belts which are worn with difficulty by troops laden with full packs and equipment.

The design is such that the pack can be removed without taking off the yoke-type preserver, or the preserver itself can be removed quickly without disturbing the pack. It has sufficient buoyancy to support a man fully equipped with helmet, rifle, ammunition and pack, and when properly adjusted, can support an unconscious man with his face out of the water.

Cranberry Rolls

Cranberry rolls which are quick to make and quick to disappear are made by rolling a standard baking powder biscuit dough one-fourth inch thick. Spread a sweetened and thickened cranberry filling on the dough and roll jelly roll fashion. Cut one inch slices from jelly roll and place cut side down in greased muffin pans. Bake in hot oven, 450 degrees, for 10 minutes.

Table Tops

Dampen a flannel cloth with essence of peppermint and rub the white spots and rings on varnished table tops. If the table has a waxed surface, treat the spot to a turpentine moistened cloth. After the turpentine has dried, rewax the surface. This same treatment will remove fuzzy rings.

Economical Preparation

To prepare foods with little waste, housewives should cook poatoes in their jackets, cook meats at a low temperature, serve vegetables and fruits raw if possible, boil potatoes before frying and cook vegetables under lids and in small amounts of water.

Fuel Saver

Few people living in cities follow the good old country fashion of banking the foundation of their homes with leaves, sod or earth. They still do it on the farms. It is a good fuel saver, too, and would save at least 5 per cent, and probably 10 per cent, where sills are leaky.

Curling Linoleum

If your linoleum is beginning to bulge or curl, fill a hot water bag and put over the edge. When the linoleum is thoroughly warm, move the hot water bag and place a weight over the spot and the linoleum will go back into place.

Hillcrest Circle Fetes Grace Hill With Reception

Mrs. Grace Hill, recently elected grand auditor of the Grand Circle of California, was feted at a reception in her honor at Masonic temple, Hillcrest drive, Monday evening, August 13 by Hillcrest Circle No. 143, UAOD.

Her two sponsors were past grand archdruidess, Mrs. Madeleine Fellows and past grand archdruidess, Mrs. Mae Lane.

Mrs. Hill received many lovely gifts and flowers.

Grand Auditor Mrs. Sarah Brundige and Post Grand Archdruidess Mrs. Matilda Bennett were present at the reception.

Feature course of the dinner was chicken pies and a lovely cake topped with "Good Luck, Grace."

Mrs. Catherine Foreman, district deputy of Hillcrest Circle has joined the rank of grandmothers since the arrival of Wendy, daughter of Lieutenant and Mrs. Robert Capps, Monday, August 13.

Cooking Cabbage

In England where food is scarce the government is trying to help homemakers prepare what they have in the best possible manner. Cabbage is one thing there has been a lot of and the ministry of food advises cooks that cabbage cooked in hunks comes out soggy and tasteless. It suggests shredding the cabbage before cooking, cutting in half-inch slices—wider than when preparing cole slaw. To cook, put a very little water into the pan, just enough to cover the bottom and prevent burning—a cupful is usually sufficient. Bring to a boil, add salt, and put in the cabbage. Put on the lid and boil for 10 or 15 minutes—not more—with the lid tightly on the whole time. Then drain off any remaining water and serve.

Rots Leather

Never wear shoes over bare feet, not even when substituting make-up for stockings. Wear peds or socks to absorb foot perspiration because perspiration has an alkaline effect which is very bad for leather. With leather high on the list of materials needed by the armed forces, civilians must take every possible precaution to keep shoes in good condition. The invisible peds and the socks should be washed after every wearing, particularly when worn with open-toe and open-heel sports shoes. Women should be just as dainty about these brief foot coverings as they are with full length hose.

Beach Bound

INDIVIDUALIST in the exposure fashions of the season is the figure-flattering swim suit chosen by CBS actress Phyllis ("Armstrong's Theater of Today") Creore from a collection of Tina Leser original creations. Coupled with the decorative manipulation of maroon and blue woven "satin" stripes on misty grey Nofade cotton is a skillful body-molding trick of the designer. (From Lord & Taylor, New York).

Navy 'Citation' For Tokyo Rose Of Radio Tokyo

The Navy Department, through Captain T. J. O'Brien, USN, director of welfare, today cited Tokyo Rose of Radio Tokyo for "meritorious service contributing greatly to the morale of United States armed services in the Pacific," and gave her permission to "broadcast soon to the United States Army of Occupation in Japan and to the ships of the United Fleet at anchor in Yokohama Bay, the history-making scene of Admiral Halsey riding the Japanese Emperor's white horse through the streets of Tokyo."

The "citation" was recorded by Captain O'Brien for broadcast over "The Navy Reporter," radio program which is short-waved to all personnel beyond the continental limits.

The text of Captain O'Brien's statement follows:

"The men and women of the navy, marine corps and coast guard take pleasure in presenting this citation to Tokyo Rose of Radio Tokyo, for service as set forth in the following:

"For meritorious achievement while serving as a radio propaganda broadcaster for the Japanese. While the United States armed forces in the Pacific have been extremely busy capturiing enemy-held islands, sinking Jap ships, and killing Japs and more Japs, Tokyo Rose, ever solicitious of their morale, has persistently entertained them during those long nights in fox-holes and on board ship, by bringing them excellent state-wide music, laughter and news about home. These broadcasts have reminded all our men of the things they are fighting for, which are the things America has given them. And they have inspired them to a greater determination than ever to get the war over quickly, which explains why they are now driving onward to Tokyo itself, so that soon they will be able to thank Tokyo Rose in person.

"As the Japanese Empire crumbles about her, Tokyo Rose zealously continues to bring laughter and entertainment to our men and women.

"In recognition of this meritorious service, this citation is presented and with it goes permission to broadcast soon to the United States Army of Occupation in Japan and to the ships of the United States Fleet at anchor iin Yokohama Bay, the history-making scene of Admiral Halsey riding the Japanese Emperor's white horse through the streets of Tokyo."

Rinse Glasses

Rinsing glasses which have held milk, particularly buttermilk, with cold water before washing prevents the milk from curdling in the glasses.

From U. S. Treasury

Repair Rug

If there is a hole in the body of your rug, sew a patch on the wrong side. Make the patch large enough to overlap the raw edges at least two or three inches. Then hook new yarns or strips of cloth to fill in the hole, as for bare spots. Make a few of the rows extend out into the body of the rug, raveling out some good loops if necessary. This helps to strengthen the edges around the hole and to blend the new material with the old. Finish by putting a lining on the entire back.

Vanity Fatal

The Duke de La Rochefoucault, whose celebrated Maxims are exemplifications of the thesis that "vanity is the motive of all human actions," joined the revolt of the "Fronde," in which he lost the greater part of his fortune because his wife was not granted the "tabouret"—the privilege of sitting down in presence of the king and the queen.

Cleans Fur

Bran cleans fur. Warm the bran and rub it well into the fur. After several hours, brush it out and shake fur genly.

Low in Calories

Onions are low in calories and contain fair amounts of essential minerals and vitamins.

China Stains

Don't let vinegar, lemon juice or salt stand long on your pretty china. The design may suffer. If cups aren't rinsed soon after using, the stains will be hard to budge. If a cup has been stained, wipe with a damp cloth sprinkled with baking soda. Three tablespoons of baking soda to a quart of warm water will soak loose any scorched or stubborn foods on earthenware or on your heat resistant glass.

Fried Apples and Carrots

Sometime try frying apples and carrots together. Use equal amounts of each. Slice the apples about ¼-inch thick, cut the carrots in lengthwise slices and spread over the bottom of the frying pan in a small amount of fat. Cover and cook slowly until nearly tender. You'll need to stir often to prevent scorching. A little before the carrots and apples are done, sprinkle on a tablespoon of sugar and a little salt and let brown.

Hoe First Tool of Garden

The hoe is supposed to be the first implement for hand cultivation. Tradition hints that primitive man must have first used a shell to dig into the sandy loam on the seashore or lake front. Then a handle of wood was attached to a shell. by a home-made leather thong, or a vine. As the ages came and went, the hoe changed in keeping with the artisan's skill. From beaten metals of soft texture to wrought iron, the steel and the modern hoe of the war and victory garden eras developed

Singing Russians

When units of the Russian armies are marching, at the head of each company with the company commander, are the best singers of the unit. They sing a stanza of the song, then the company takes up the chorus in harmony. It makes a deep impression upon spectators and at the same time, gives the soldier in ranks the sense of being part of a roaring power that marches on and on. It makes civilians march in step with the unit, take up the song and sing with the soldiers. This in turn creates in both a strong feeling of unity. Singing lessons are compulsory in the Red army.

License Fees

Municipal license fees charged for cigarette vending machines, juke boxes and mechanical amusement devices vary widely on the basis of a survey of ordinances of 38 cities. License fees charged by cities for operating of cigarette vending machines range all the way from $2 a year in Atlantic City and Pasadena, and $3 a year in Wichita, Kan., and Wilmington, Del., to sliding rates calling for much higher fees in Los Angeles and Birmingham.

Lady of Leisure

CLEAR, UNCLUTTERED LINES that make much of shoulders and little of the waist have been adapted to the white waffle rayon slack suit worn by CBS singer Jeri ("Ray Bolger Summer Show") Sullavan for terrace and garden lounging. Softened by a demure quaker collar and angel-wing sleeves, the model by Tabak of California introduces another argument in favor of more feminine sportswear.

Captain Leaves His Ship

Official U. S. Navy Photo

Covering his emotion Captain Dixie Kiefer, USN, left, skipper of an Essex-class carrier, jokes with crewmen before being transferred to a hospital ship. Captain Kiefer suffered 65 shrapnel wounds when a Jap bomb hit his ship. Despite the gravity of his wounds, the Captain had to remain on duty for 12 hours without medical attention. The war in the Pacific is no picnic, he pointed out. Your complete support is needed. Buy another $100 War Bond.

Manpower Drive For Railroads Is Still Under Way

With the railroad manpower drive nearing the end of the first of its four weeks of effort in Northern California, the Railroad Urgency Committee reported that the campaign for some 7500 skilled workers is now in full swing.

"Approximately 310,000 American soldiers are on the high seas throughout the world," said Col. Edward F. Brown ATC and chairman of the Railway Urgency Committee for Northern California. "Another 700,000 redeployed troops are at Transportation Corps ports, staging areas, or at Army reception, personnel centers or on furlough."

"A million more troops will be embarked from Europe to return to the United States from this month until December. By the end of 1945 in excess of 1,850,000 troops are expected to have been returned to this country. Slightly less than 900,000 troops will remain to be moved in the following months."

Col. Brown pointed out that the burden of this movement on domestic transportation will be reflected in swiftly mounting tide of organized troop movements. In July alone approximately 1,250,000 troops were moved.

"Planning forecasts indicate that the Army freight peak for the Pacific warfare will reach more than 11 million tons in April of 1946," Brown stated.

"All of which," he pointed out, "means that the carriers in the West are facing the greatest transportation job of all time."

Skilled railroad workers such as brakemen, switchmen, signalmen, telegraphers, and shop craftsmen of all kinds; including carmen, machinists, building and bridge carpenters, and boilermakers are urgently needed. Workers in these classifications are asked to apply at once to the Railroad Retirement Board, the U. S. Employment Service, or any railroad office.

Sharpen Fishhooks

Fishhooks can be sharpened when dull by rubbing them over the scratching surface of a book of matches.

NATIONAL PRESS BUILDING
WASHINGTON, D. C.

By Anne Goode

Now there's another vitamin. Unnamed as yet, it's found in milk and molasses. Tests on guinea pigs show that it will relieve stiffness in joints and muscles caused by an accumulation of calcium.

★ ★ ★

A new wax-like product on the market, if properly used, will make chintz curtains and slip covers look like new. You combine it with starch, a half a cake to one quart of starch, and use two cups of this basic starch in the last tub of rinse water.

★ ★ ★

California promises us plenty of oranges. And here's a new way to prepare them: Cut oranges crosswise in ½ inch pieces and "pink" the skin. For 18 slices blend ⅔ cup sugar, ¼ cup flour, ⅓ cup quick oats and 2 tablespoons vitaminized margarine into crumbs. Sprinkle on orange slices and cook under hot broiler flame on greased cooky sheet until crumbs brown and melt. Serve with crackers and a cream cheese sauce.

★ ★ ★

Several of the larger chemical companies have developed synthetic textile fibres which will vie with each other for the post war hosiery trade. . . . One company says it has a plastic "as good as nylon and cheaper."

★ ★ ★

One of the tastiest mayonnaise variations you ever put a mouth to is made by mixing real mayonnaise, cottage cheese, chopped chives and a little salt and pepper. Serve it with most any vegetable salad and it's ever so good.

★ ★ ★

Moths do a tremendous damage each year. So you'd better check to make sure you've put your woolens away with plenty of moth preventatives to take care of them during the summer months.

Fire Laddies Keep Plenty Busy

Local fire departments answered four alarms during the past week, which included two grass fires, a short in box 31 and a chimney fire in the home of Mrs. F. E. Lamb, 154 Winchester street.

Companies 1 and 4 answered the call from box 52 which sent them to extinguish the latter fire on Saturday, August 11 at 8:33 p. m.

The grass fire at 12:40 p. m. Thursday, August 9 on the hills in back of Frankfort street was answered by Company 4.

Companies 1 and 2 answered a call from box 31 at Westlake avenue and Willits street which had shorted.

The grass and fence fire at 8:45 p. m. Monday, August 13 in the vicinity of Vale and Werner streets was answered by Companies 1, 2 and 6.

Plastic Eye

Artificial eyes made of a water-clear plastic that can be tinted to duplicate every appearance of the natural eye now are being created by skilled technicians for the use of wounded veterans and soldiers inducted with glass eyes, it was announced by the war department. The new eyes duplicate in appearance the coloring of nature's own because every effort is made to construct them anatomically exactly like the natural eye. Each layer of color in the artificial eye—the iris, the pupil, the eye ball and the tiny network of red veins—is placed in the artificial substitute as nearly as possible as it occurs in a real eye ball.

Enrich Stuffing

Nuts may be used to add richness to stuffing for poultry, to croquettes, or to muffins, waffles, cakes or cookies. In adding nuts to waffles and cookies use a fourth to a half cup of coarse chopped nuts to each cup of flour.

Water Makes Milk Richer

Cows with water constantly before them drank 18 per cent more and produced 3.5 per cent more milk and 10.7 more butterfat than did cows watered at an outdoor tank morning and night, the Iowa experiment station found.

Winter Bloom

Outdoor geraniums can be made to bloom throughout the winter, if brought indoors before the first frost. Place the plants in small pots containing loose, friable earth. Plants must be pot-bound in order to keep blooming; otherwise all strength will go into the foliage. Keep plants in a cool, fresh atmosphere and water sparingly. The growing tips should be pinched to produce stocky, bushy, shapely plants. Apply plant food every five or six weeks.

Hard Money

The use of iron as money, judging from the statement of Aristotle, was long practiced in ancient Greece. One remarkable instance of this was in Sparta, where it was clearly a survival of an older custom which had died out among the other Greeks. Modern writers state that Sparta continued the use of iron money in order to discourage the pursuit of great wealth—since having a fortune in iron necessitated the placing of it in warehouses and the payment of storage charges, instead of putting it in banks and collecting interest.

Nuts for Fats

Since pecans are over 70 per cent fat it is often possible to substitute nuts for part of the fat in a recipe. For example, in making pie crust, finely ground pecans may be used for half the fat called for in the pastry recipe. The ground pecans are added to the fat, and the pastry mixed and baked in the usual way. This nut pastry is especially delicious with cream or custard filling.

Fire Accidents

The National Safety council has pointed out that burns are responsible for 25 per cent of farm home deaths, compared with 17 per cent for the national total. The winter months are the dangerous fire months on the farm. The use of kerosene or fuel oil to build the fire in the kitchen range is a dangerous practice and should be avoided. The use of paper and kindling might take a little longer, but lives are safer.

Manicured Shell Makers

To make the detonator of a shell, bomb or other explosive projectile, a portion of the explosive material in the center is exposed and protected only by a thin, flexible tinfoil three one-thousandths of an inch in thickness. At this particular spot the detonator is so sensitive that it can be set off with a pointed fingernail. For this reason all employes who handle detonators must have their fingernails rounded by company nurses who regularly inspect fingernails.

Lignin Stabilizer

Successful experiments have been made in Quebec with lignin extract as a stabilizing material in road construction. Lignin is a byproduct of the pulp and paper industry. Heretofore it has been regarded largely as a waste. In the Quebec experiment, lignin extract in powder form is mixed with gravel and clay, whereupon the mixture is spread in layers and rolled. Lignin increases the bonding power of the clay to make a stabilized and semi-permanent mat.

Cleaning Spots

Be miserly with cleaning fluid or water — barely dampen a wad of cheesecloth, then tamp with unevenly placed strokes to avoid a ring. It's a flecking motion, a feather touch. The idea is to work quickly. Blow on the area to hasten drying. Never rub a spot, because a rubbed area highlights just like a spot even if it isn't. Pat dry with a clean dry cloth. Quick, airy hang-up helps avoid a ring.

Trick Vase

Do you by chance have an old kerosene lamp in the attic or basement? It might be either clear glass with pressed designs or painted flowers, or it might be a metal and glass combination. Try removing the wick and shadeholder and arranging a mixed bouquet in the adequate opening. This lamp base becomes a vase, lovely in shape and the right size for your table or mantel.

It's "one meat b-a-r"—so speak it plainly. About the size of an average piece of candy one of these bars will provide as many calories as a T-bone steak. They're made of a mixture of dehydrated meat and fat.

★ ★ ★

OPA says no new shoe stamp until August 1. Airplane stamps 1, 2 and 3 will be valid indefinitely. (But who's got one?) . . . Better give your shoes the old 1, 2, 3. Have them repaired promptly, keep their shape with shoe trees and apply the ol' shinola to preserve and shine them.

★ ★ ★

If you've been "squeezing" your oranges you've been losing vitamins, nutrition experts say. Whole segments are the best way to get the most vitamins.

★ ★ ★

Looks like it's good bye to the old hay loft, as farm engineers predict the end of the familiar two-story barn. In its place will be a prefabricated structure which lends itself to a one-story design.

★ ★ ★

And now it's twelve red points for vitaminized margarine! But there are a dozen or more ways to use it. First, as a spread for bread, sandwiches, etc. Then use it as a base for sauces and soups, or for sauteing and baking—just to mention a few.

★ ★ ★

Authorities still say clothes rationing would be almost impossible. However, WPB has suggested that retail stores limit purchases of textiles and clothing, to help prevent hoarding among customers.

★ ★ ★

And speaking of clothing, have you checked yours and turned in all the wearables you don't really need to the United National Clothing Collectors?

Vegetable Leaves

A vigilant effort is now being made by agricultural scientists to salvage values from the large quantities of the leaves of vegetables that have been going to waste around vegetable processing plants. These waste leaves are high in protein, carotene and riboflavin—three costly feed constituents that are particularly scarce now on account of war conditions. Meal was prepared by drying the leaves until the blades were brittle, but the stems still tough; then tumbling them in a rotary screen until the leaves broke off and dropped through.

Tibet World's Highest Land

Tibet is the highest country in the world, with tablelands rising 16,000 feet above the sea.

Attractive Table

If you have a beautiful white linen damask tablecloth, you won't need hothouse flowers to set an attractive table. Use a pair of Dresden statuettes in pastel colorings or a grouping of small glazed pottery ducks and you will be delighted with the effect. In Blair house, where official Washington entertains visiting diplomats, the handsome eighteenth century table is often set with no other decoration than a row of pewter tankards down the center.

Scratched Oak

Scratches on finished oak can be darkened until they virtually disappear by applying linseed oil daily with a small brush. Polish after each application.

POINT ECONOMY RECIPES

HERE'S HOW to CAN
TOMATOES
COVER TOMATOES WITH BOILING WATER, LET STAND 1 MIN., PLUNGE INTO COLD WATER. DRAIN, PEEL and CORE. CUT IN QUARTERS, HEAT TO BOILING POINT. DO NOT ADD WATER --
